1.1. Shareholding structure

In the table below shares issued are outstanding for computing the ownership percentage of shareholders holding at least 5% of votes at the General Meeting of Shareholders, applicable percentages are based on 22,000,000 shares outstanding on the date of this quarterly report preparation. All percentages are rounded.

 Table 2 Shareholder structure with specification of shareholders holding at least 5% of votes at the General Meeting of Shareholders at the date of the report.

| Name of Shareholder | Number of owned shares/votes | Shareholding/votes at General Meeting of Shareholders [%] |
|----------------------------|------------------------------|--|
| MILESTONE SCIENTIFIC, INC. | 21,689,078 | 98.59% |
| OTHERS (<5%) | 310,922 | 1.41% |
| TOTAL | 22,000,000 | 100% |

Source: The Issuer

The company reported on ESPI report 6/2016 published on June 17, 2016 that Milestone Scientific initiated a share exchanged program pursuant to which would exchange one share of common stock for every two outstanding shares of Milestone Medical common stock. Through the report date, Milestone Scientific Inc. acquired additional 10,638,084 (48.35%) shares of the Issuer's outstanding share from various shareholders. An additional 55,994 shares (0.25%) are in the process of exchange as of the date of this report. Because of these transactions, Milestone Scientific Inc. owns approximately 98.59% of the outstanding shares of the Issuer.

In January 2017, and June 2017 the parent company continued its exchange program and exchanged 1,625,084 shares of Milestone Medical shares from a shareholder. After the exchange, Milestone Scientific will own approximately 98.59% of the shares in Milestone Medical.

1.2. Board of Directors

Table 3 Board of Directors

| NAME OF DIRECTOR | CURRENT AGE | DIRECTOR SINCE | END OF TERM |
|------------------|----------------|-------------------|-------------------------------------|
| Leonard A. Osser | 70 | Mar-11 | Next Annual Meeting of Shareholders |
| Zhu Yun | 52 | Sep-13 | Next Annual Meeting of Shareholders |
| Martin S. Siegel | 73 | Sep-14 | Next Annual Meeting of Shareholders |

* On May 23, 2017 the Annual General Meeting of Shareholders adopted the resolution on the appointment of three Directors to the Board of Directors for new term of office.

On July 10, 2017 Leonard Osser resigned as a member of the Board of Directors of the Issuer. An addition to the Board of Directors will be nominated later in the third quarter of 2017. Source: The Issuer

1.3. Information on the number of persons employed by the Issuer converted into FTEs

On June 30, 2017 the Issuer employed one full time employee and three (3) persons converted into full-time equivalents ("FTEs"). There is an open position for an additional one (1) full time employee: a Nurse Anesthesiologist. The Company has contracted with a Business development consultant's for business activities in Europe and the Middle East in 2017. An additional consultant for the European market was added in July 2017. The open position is scheduled to be hired sometime in 2017.

2. Consolidated quarterly financial statements prepared according to the accounting rules applicable to the Issuer and its Subsidiary together with information on accounting rules (policy) applied to the preparation of report

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS For three and six months ended June 30, 2017 and 2016 (unaudited) and the year ended December 31, 2016 (audited)

NOTE 1 - ORGANIZATION:

In March 2011, Milestone Medical Inc. (the "Company") was organized pursuant to a joint venture agreement (the "Joint Venture Agreement") between Milestone Scientific, Inc., a Delaware corporation, and Beijing 3H Scientific Technology Co., Ltd. ("Beijing 3H"), a People's Republic of China ("PRC") Company. At inception, Milestone Scientific, Inc. contributed an exclusive worldwide royalty-free license for the development and commercialization of intra-articular and epidural drug delivery instruments, utilizing its patented CompuFlo technology. Additionally, Beijing 3H, and a group of other investors contributed \$1.5 million to the Company.

In September 2014, the Company established a special purpose Polish company called Milestone Medical Poland Sp. z.o.o. The purpose of which is for the application and acceptance of Polish Government Grants for research and development of current and future improvement to the epidural and intra-articular instruments. Milestone Medical Poland Sp. z.o.o., is seventy – five percent owned by the Company. As of June 30, 2017, Milestone Medical Poland Sp. z.o.o. has not received any grants from the Polish Government.

On June 12, 2017 the company announced that the CompuFlo® Epidural Computer Controlled Anesthesia System has received 510(k) clearance from the U.S. Food and Drug Administration (FDA). The CompuFlo® Epidural System provides anesthesiologists and other Health Care Providers for the first time, the ability to quantitatively determine and document the pressure at the needle tip in real-time. The CompuFlo® Epidural's proprietary DPS Dynamic Pressure Sensing TechnologyTM (DPS) allows the CompuFlo® Epidural to provide objective visual and audible in-tissue pressure feedback that allows anesthesiologists to identify the epidural space.

The Company received notification from the FDA in December 2016 that based upon the 510(k) application submitted for the Company's Compu-Flo Intra Articular Computer Controlled Injection System, the Company did not adequately document that the device met the equivalency standard required for 510(k) clearance. The Company provided an additional data submission to the FDA in April 2017, in support of a resubmission 510(k) application for the device.

The Company intends to resubmit an application for a 510(k), for the Compu-Flo Intra Articular instrument and include focused attention on the area's that the FDA indicated shortfalls in the original application. The new 510(k) application for the Compu-Flo Intra Articular instrument will be processed in the fourth quarter of 2017.

The Company is in the process of introductory meetings with medical device distributors within the United States and European markets. The Company's focus will be on marketing its two instruments throughout the world.

On June 17, 2016, Milestone Scientific initiated a share exchange program pursuant to which would exchange one share of Milestone Scientific Inc. common stock for every two outstanding shares of Milestone Medical common stock. As of June 30, 2017, 5,319,042 shares of Milestone Scientific common stock have been issued in exchange for 10,638,084 shares of Milestone Medical common stock. As a result of these exchanges, Milestone Scientific owned approximately 99% of Milestone Medical at June 30, 2017.

In March 2017 on the ESPI 3/2017 report the Company announced it has begun its clinical rollout for the epidural instrument in the Middle East and North Africa (MENA) regions, by initiating clinical evaluations at key hospitals in the United Arab Emirates and in Lebanon. Given the extensive published clinical data supporting successful epidural catheter placement in patients with complex morbidities, clinicians and key opinion leaders in these territories have expressed further interest in broadening the technical scope into the challenging thoracic epidural procedures, as well as extending its use into pediatric cases.

The Company is also continuing its collaboration with key opinion leaders in Italy with a focus on expanding its clinical utilization at key hospitals in Rome, Florence, Naples and Pesaro, which resulted in additional scientific data accepted for presentation at the recent meeting of the European Society for Anesthesiology to be held in Geneva, Switzerland.

NOTE 2 - LIQUIDITY AND GOING CONCERN:

Milestone Medical Inc. has incurred significant operating losses since its inception as a development company. At June 30, 2017 Milestone Medical Inc. had cash of \$87,095 and a negative working capital of approximately \$7,645,012 as compared to negative working capital of \$6,421,000 at December 31, 2016.

As of June 30, 2017, Milestone Medical Inc. believes that it does not have sufficient cash to meet all of its anticipated obligations for the next twelve months from the financial statement release date. Milestone Medical Inc. will continue to manage its cash position while taking strategic steps to commercialize the Epidural instrument in the USA and throughout the world. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Although the Company's instruments have progressed beyond the development stage, additional equity financing is necessary to fund the commercialization of the medical instruments. To this end, the Company and Milestone Scientific, Inc. are currently in the process of pursuing additional financings. However, the Company and Milestone Scientific, Inc. can provide no assurance that additional financings will be consummated on acceptable terms, or at all.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Basis of Consolidation

The Company owns seventy-five percent of a special purpose company organized in Poland, Milestone Medical Poland Sp. z.o.o., which is not active at this time.

Cash

The Company considers all liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Inventory

Inventories principally consist of pre-launch instrument finished goods stated at the lower of cost (first-in, first-out method) or market. Inventory quantities on hand is reviewed on a quarterly basis and Milestone Medical, Inc. Consolidated Quarterly Report for 2Q 2017

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

a provision for excess and obsolete inventory is recorded if required based on the expected future sales both domestically and internationally.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advances to Contractors

The advances to contractors represent funding to a subcontractor, for spare parts required for both epidural and intra articular instruments repairs.

Equipment

Equipment (molds for pre-production and commercialized instruments) is recorded at cost, less accumulated depreciation. Depreciation expense is computed using the straight-line method over the estimated useful lives of the assets, which is five years. The costs of maintenance and repairs are charged to operations as incurred.

Revenue Recognition

Revenue from product sales are recognized net of discounts and allowances to distributors on the date of shipment for essentially all shipments, since the shipment terms are FOB warehouse. In all cases, the price to the buyer is fixed and the collectability is reasonably assured. Further, Milestone Medical Inc. has no obligation on these sales for any post installation, set-up or maintenance, these being the responsibility of the buyer. Milestone Medical Inc. is only obligated after sale is the normal commercial warranty against manufacturing defects if the alleged defective unit are returned within the warranty period.

Intangible Asset

In connection with the formation and capitalization of the Company, the business was valued at inception using the discounted cash flow method, which resulted in a valuation of approximately \$3 million. The Company allocated the business valuation between the cash that investors agreed to contribute (\$1.5 million) and the remaining \$1.5 million was allocated to Milestone Scientific, Inc.'s contribution of a royalty-free right to use its patented CompuFlo technology (intangible asset). The company will begin amortizing the intangible asset contributed when either of the two medical devices has been fully commercialized which includes obtaining final FDA approval. The asset estimated useful life is based on the average remaining life of the underlying patents. Currently the remaining useful life of the patents is approximately 8 years. The Company assesses the intangible asset for impairment at each reporting period or sooner if there are indicators that trigger an earlier assessment. The Company's impairment assessment are based on several factors including the progress made in developing the two medical instruments, the results from the research performed by the vendor, the Company's ability to use its technical capabilities to forecast the outcome of the research being performed and recent feedback received from professionals. The Company received

Milestone Medical, Inc.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

FDA clearance in June 2017 for the epidural instrument. CE clearance was received in September 2014 for both the epidural and intra articular instruments. All these factors indicate that the technology is expected to be commercialized in the two instruments. Accordingly, no impairment has been recorded as of June 30, 2017 and December 31, 2016.

Research and Development

Research and development costs are expensed as incurred. A portion of the Company's research and development efforts is sub-contracted to vendors and progress are monitored periodically.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets, including tax loss and credit carryforwards, and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized.

Accounting for uncertainty in income taxes prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and also provides guidance on derecognition, classification, interest and penalties, disclosure and transition. At June 30, 2017 there are no significant income tax uncertainties that have been included in the Company's financial statements. The Company's policy is to recognize interest and penalties on unrecognized tax benefits in income tax expense in the statement of operations. Tax returns since inception are subject to audit by federal and state audit.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued guidance for revenue recognition for contracts, superseding the previous revenue recognition requirements, along with most existing industry-specific guidance. The guidance requires an entity to review contracts in five steps: 1) identify the contract, 2) identify performance obligations, 3) determine the transaction price, 4) allocate the transaction price, and 5) recognize revenue. The new standard will result in enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue arising from contracts with customers. In August 2015, the FASB issued guidance approving a one-year deferral, making the standard effective for reporting periods beginning after December 15, 2017. The FASB continues to release guidance clarifying certain aspects of the revenue guidance. We do not believe that this new accounting pronouncement will have a material impact on our financial statements.

In February 2016, the FASB issued a new standard Accounting Standards Update ("ASU ") No.2016-02, "Leases"(Topic 842). The new standard is intended to increase transparency and comparability among organizations to recognize lease assets and liabilities on the balance sheet and disclose key information about leasing arrangements. It will be effective for fiscal years beginning after December 15, 2018. Milestone Medical is in the process of determining what impact, the adoption of this ASU will have on its financial position, results of operations and cash flows.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

In March 2016, the FASB issued a new standard ASU No.2016-07, "Investments - Equity Method and Joint Ventures" (Topic 323): The new standard is intended to eliminate the requirement that when an investment qualifies for the use of the equity method as a result of an in increase in the level of ownership or degree of influence, results of operations and retained earnings retroactively on a stepby-step basis as if the equity method had been in effect all of the previous periods that the investment was held. It will be effective for all entities for fiscal years and interim periods, beginning after December 15, 2016. The Company has adopted the standard, effective January 1, 2017, and has determined the adoption of this standard will not have an impact on its financial reporting.

In June 2016, the FASB issued a new standard ASU No.2016-13, "Financial Instruments – Credit Losses" (Topic 326).: The new standard is intended to replace the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. It will be effective for all entities for fiscal years and interim periods, beginning after December 15, 2018. Milestone Medical is in the process of determining what impact, if any, the adoption of this ASU will have on its financial position, results of operations and cash flows.

In August 2016, the FASB issued a new standard ASU No.2016-15, "Statement Cash Flows "Classification of Certain Cash Receipts and Cash Disbursements" Topic 230). The new standard provides guidance as to the conformity of presentation of certain cash receipts and disbursements. It will be effective for all entities for fiscal years and interim periods, beginning after December 15, 2017. Milestone Medical is in the process of determining what impact, if any, the adoption of this ASU will have on its presentation within the statement of cash flows.

In November 2016, the FASB issued a new standard ASU No.2016-18, "Statement of Cash Flows – Restricted Cash" (Topic 230). The new standard provides guidance as to address the diversity of treatment of restricted cash on the statement of cash flows. It will be effective for all entities for fiscal years and interim periods, beginning after December 15, 2017 and interim periods therein. Milestone Medical does not expect the adoption of this ASU to have a material effect on its presentation within the statement of cash flows.

In January 2017, the FASB issued a new standard ASU No.2017-01, "Business Combinations" (Topic 805). The new standard provides guidance to clarify the definition of a 'business', and assist entities in evaluation whether a transaction should be accounted for as an acquisition/disposal of assets or a business. It will be effective for public entities for fiscal years and interim periods, beginning after December 15, 2017, with limited early application. Milestone Medical is in the process of determining what impact, if any, the adoption of this ASU will have on its presentation within the statement of cash flows.

In May 2017, the FASB issued a new standard ASU No.2017-09, "Compensation – Stock Compensation" (Topic 718). The new standard provides guidance and clarity for modification to equity based compensation programs. It will be effective for all entities for fiscal years and interim periods, beginning after December 15, 2017. Milestone Medical is in the process of determining what impact, if any, the adoption of this ASU will have on its presentation within the statement of cash flows.

NOTE 4 – JOINT VENTURE AGREEMENT:

Pursuant to the Joint Venture Agreement, Milestone Scientific, Inc. contributed an exclusive worldwide royalty-free license for the development and commercialization of intra-articular and epidural drug delivery instruments, utilizing its patented CompuFlo technology and a group of individual investors contributed \$1.5 million to the Company. At inception, the Company reviewed the transaction to assess the technological feasibility of the product being develop. Based on the following factors, the Company believed the technology was feasible from inception.

Milestone Scientific, Inc. is authorized by the Joint Venture Agreement to manage and oversee the development of the two medical instruments for the Company. In connection with this, Milestone Scientific, Inc. entered into an agreement with a vendor to develop the two instruments. Milestone Scientific, Inc. personnel monitored the development of the instruments with the third party vendors on a periodic basis thus ensuring that the instruments will be developed according to medical standards.

Milestone Scientific, Inc. has distribution responsibility in the U.S. and Canada, while Milestone China Ltd, (a Hong Kong Medical Company owned forty (40) percent by Milestone Scientific, Inc.) at that time is to distribute products exclusively in the PRC and other regions in Asia. The Company has distribution responsibilities for the rest of the world.

NOTE 5 RELATED PARTY TRANSACTIONS:

On December 31, 2014, Milestone Scientific Inc. executed a \$2 million line of credit agreement to provide bridge financing to the Company through April 15, 2016. Borrowings under the line bear interest at a rate of 3.25%, the prime rate at the inception of the agreement. In September 2015, the company requested and received approval from the Board of Directors of Milestone Scientific Inc. to increase the limit of the line of credit to a maximum of \$2.5 million in January 2016, the credit agreement increased to \$3 million. As of June 30, 2017, Milestone Scientific, Inc. has advanced \$2,800,000 to Milestone Medical. All other terms in the line of credit agreement remain unchanged. Milestone Scientific Inc. is not legally obligated to provide any other funding to Milestone Medical Inc.

The shared expenses relate to the management, financial, engineering and accounting services provided by the staff of Milestone Scientific Inc. These expenses relate to the costs incurred related to obtaining CE and FDA approval and represent additional contributions from Milestone Scientific. The shared expenses for the three months ended June 30, 2017 and 2016 were approximately \$17,548 and \$63,000 respectively. The shared expenses for the six months ended June 30, 2017 and 2016 were approximately \$35,352 and \$124,040 respectively.

As of June 30, 2017 the Company owes \$5,227,079 to Milestone Scientific, Inc. for expenses paid on the Company's behalf. As of December 31, 2016, the Company owed \$3,857,870 to Milestone Scientific, Inc. for expenses paid on the Company's behalf.

The company reported on ESPI report 6/2016 published on June 17, 2016 that Milestone Scientific initiated a share exchanged program pursuant to which would exchange one share of Milestone Scientific Inc. common stock for every two outstanding shares of Milestone Medical common stock. As of June 30, 2017 5,319,042 shares of Milestone Scientific common stock have been issued in exchange for 10,638,084 shares of Milestone Medical common stock. As a result of these exchanges, Milestone Scientific owned approximately 99% of Milestone Medical at June 30, 2017.

NOTE 6 - CONCENTRATIONS:

The Company has informal arrangements for the manufacture of its products, the epidural and intraarticular instruments are manufactured by Tricor Systems, Inc. pursuant to specific purchase orders. There are no open purchase orders for the manufacture of instruments as of June 30, 2017. The Company sub-contracts its research and development to a vendor, which accounted for 100%, and 55% of research and development expenses incurred for the three and six months ended June 30, 2017 and 2016, respectively. The epidural and intra-articular handpiece with needle are supplied to Milestone Medical by several independent contractors in the United States, which arrange for its manufacture in China.

The termination of the manufacturing relationship with any of the above manufacturers could have a material adverse effect on Milestone Medical's ability to produce and sell its products. Although alternate sources of supply exist and new manufacturing relationships could be established, Milestone Medical would need to recover its existing tools or have new tools produced. Establishment of new manufacturing relationships could involve significant expense and delay. Any curtailment or interruption of the supply, whether or not as a result of termination of such a relationship, would adversely affect Milestone Medical.

NOTE 7 - COMMITMENTS AND CONTINGENCIES:

On July 10, 2017, Mr. Osser resigned from his positions of Chairman of the Board, Chief Executive Office and President of Milestone Medical. Upon his resignation, Milestone Medical entered in a consulting agreement with U.S. Asian Consulting Group LLC, an entity controlled by Mr. Osser, pursuant to which he will provide specific services to Milestone Medical for a ten- year term. Pursuant to the consulting agreement, U.S. Asian Consulting Group, LLC, is entitled to receive \$100,000 per year for Mr. Osser's services. On the same day Mr. Daniel Goldberger was appointed for the position of Chief Executive Officer.

3. Information on the rules applied to the preparation of the report, including information on the changes in applied account rules (policies)

Consolidated quarterly report for the second quarter of 2017 was prepared in accordance with the rules indicated in Exhibit 3 to the Alternative Trading System Rules "Current and Periodical Information in the Alternative Trading System on the NewConnect market". Information on applied accounting rules (policies) are presented in Note 3 to the Financial Statement. During the second quarter of 2017, there was no change to the applied accounting rules

4. Brief description of the most important achievements or failures of the Issuer and its Subsidiary during the period of the report as well as a description of the most important factors and events, in particular atypical ones, which impact the achieved results.

During the second quarter, ending June 30, 2017 the Issuer and its Parent obtained USA (FDA) regulatory approval for the Epidural medical instrument. The re submission for regulatory approval of the Intra-Articular instrument is in the beginning process of a new 510k submission.

The Company currently employs one full time employee, the Senior Vice President of Marketing and Sales, who also holds the same position in Milestone Scientific Inc; however, he provides essentially all of his time to the Issuer. The Issuer has one position currently open, Anesthesiologist Registered Nurse. Additionally, the Issuer is continuing its efforts to identify and meet with potential distributors for both instruments throughout the world. The Issuer's Senior Vice President of Marketing and Sales, and a contracted Business Development Representatives for Europe and the Middle East are actively pursuing distribution partners. The company added an additional Medical device consultant in March 2017, for the specific focus on our Intra Articular instrument in the European Market. In July 2017, the issuer added a new medical business consultant for the Epidural instrument. The new consultant will focus his attention in the UK, Germany, and France. Because of the above activities performed by the Issuer, the Company during the second quarter 2015 signed a Memorandum of Understanding with Fidia Farmaceutici SpA ("Fidia"), a specialty pharmaceutical company based in Italy, for the codevelopment and manufacture of a custom intra-articular drug delivery instrument for Fidia's hyaluronic acid formulations. Additionally, during the second quarter of 2015 the Company reported on EBI report no. 25/2015 published on June 10, 2015 that a medical distributor in Italy, Moss S.P.A. agreed to a three-year agreement that included minimum purchases of the epidural instrument and disposals for the Italian market. At this time, Moss S.P.A. is continuing its distribution efforts in Italy with a number of hospitals. However, Moss S.P.A. has not signed any customer purchase agreements to date. As such Moss S.P.A. has not purchased any instruments under this agreement.

The Company is in the process of identifying distributors in the USA for the Epidural instruments, now that FDA clearance has been received.

For the quarter ended, June 30, 2017 the Issuer and its Subsidiary have generated a net loss of \$627,288. This loss was due to research and development costs of \$61,208 and to a high level of general and administrative expenses, which amounted to \$518,814. These expenses were incurred due to obtaining FDA clearance in the United States, the marketing and commercialization of the instruments in Europe, as well as increased controlled expenses for travel and the addition of a Business Development Consultants for Europe and the Middle East. The Issuer suspended its effort to raise capital in December 2015. The capital market in Poland was not conducive due to financial market turmoil in the fourth quarter of 2015. As such, the Issuer has little cash available to continue its operations. In January 2016, the Issuer borrowed an additional \$300,000 from Milestone Scientific Inc. However, Milestone Scientific Inc. is not legally obligated to loan additional funds to the Issuer. As such, the Issuer reduced its cash expenditure in 2017, until additional capital has been raised or revenues increase to cover these costs.

Milestone Medical, Inc.

Consolidated Quarterly Report for 2Q 2017 P a g e | 16

The company reported on ESPI report on 6/2016 published on June 17, 2016 that Milestone Scientific initiated a share exchange program pursuant to which would exchange one share of common stock for every two outstanding shares of Milestone Medical common stock. As of June 30, 2017, Milestone Scientific through the exchange program acquired a total 10,638,084 additional shares of Milestone Medical. Milestone Scientific Inc. has also entered agreements to exchange an additional 55,994 shares of Milestone Medical Inc. common shares later in 2017.

In 2017 the parent company continued its exchange program and exchanged 1,625,084 shares of Milestone Medical shares from a shareholder. After the exchange, Milestone Scientific will own approximately 99% of the shares in Milestone Medical.

Pursuant to the consulting agreement, U.S. Asian Consulting Group, LLC, is entitled to receive \$100,000 per year for Mr. Osser's services. On the same day Mr. Daniel Goldberger was appointed for the position of Chief Executive Officer.

5. A description of the status of implementation of activities and investments of the Issuer and its Subsidiary and the timetable of their implementation

The Issuer began the process to market and sell its epidural instruments in the European market upon receiving CE clearance in September 2014. Two medical distribution agreements for the epidural instrument and disposables were signed in 2015.

As announced in the previous year, the Issuer cancelled plans to uplist from NewConnect Market (Alternative Trading System) to the Main Market of the Warsaw Stock Exchange, in the fourth quarter of 2015.

As a result of several years of diligent effort, on June 23, 2017 Milestone Scientific was notified by FDA (USA) that the Epidural instrument received marketing clearance in the USA.

The Company received notification from the FDA in December 2016 that based upon the 510(k) application submitted for the Company's Compu-Flo Intra Articular Computer Controlled Injection System, the Company did not adequately document that the device met the equivalency standard required for 510(k) clearance. The Company provided an additional data submission to the FDA in April 2017, in support of a resubmission 510(k) application for the device.

The Company intends to resubmit an application for a 510(k), for the Compu-Flo Intra Articular instrument and include focused attention on the area's that the FDA indicated shortfalls in the original application. The new 510(k) application for the Compu-Flo Intra Articular instrument will be processed in the third quarter of 2017.

In April 2017, the company reported on ESI 5/217 that Milestone Medical was granted market clearance for its epidural, intra-articular instruments and disposables in Australia. The Company is now in the process of selecting a distributor (s) to market these instruments in Australia.
